Circular No. – MARCH/2019-20/03

Date: 27-03-19

Dear Parents,

JKG International School welcomes you to the journey of the new academic session 2019-20. Our school has exceptionally done well in the academic front by adapting **Integrated Teaching-Learning Curriculum**. This method of learning enables the students to gain knowledge, remember it with ease and also to apply the skills they learn. It gives them the opportunity to think critically, solve problems and work in teams. Our layered curriculum helps the learners to acquire great ideas and also become more engaged in different activities that combine distinct skills.

Stepping beyond conventional classrooms to open learning spaces JKGIS focuses on building learning structure wherein learners are driven by curiosity & passion and not by fear & habit.

The face of education has changed efficaciously over the past ten years or so. Teachers across the country are working hard to equip children with the skills needed for success in the 21st century world. As educators it is our foremost duty to make learning an innovative process and in this pursuit of learning we have designed our curriculum with developmental milestones and also keeping sequential learning in mind. ‘**Fusing with Fun**’ is a series of books for KG, 1st and 2nd integrating the core subjects- English, Hindi, Mathematics and EVS. The books are designed to polish the following distinct intelligences:

- Visual/spatial
- Musical
- Logical/Mathematical
- Intrapersonal

The captivating activities including puzzles, sorting and matching helps to enhance the logical and mathematical skills.

All the array of individual activities paves the way for holistic development of a child’s intrapersonal skills. Learners will be assessed individually based on the knowledge they gain and the skills they demonstrate. As parents/guardians you can discuss the new innovative teaching methodology at home, encouraging the child to think hard and ask questions about the topic. We hope our attempts and efforts to develop a love for learning will always encourage him/her to always be ready for the next level.

We wish you all the best for the new endeavor and hope that our new session brings knowledge, joy and experience for all!

Regards,

PRINCIPAL
